

“Spreading technology” Websites / Software / Custom Queries
You name it we'll code it!

Welcome:

We are **BeyondScript**, a young Developer Team. We build Web solutions in India and overseas to globalize accessibility over the web. We aim at offering our clients the best business experience by combining the use of technology, creativity, and in-depth knowledge of the domain.

- Since our inception, we have been growing at a consistent pace with impressive track record of completing all our projects on schedule and budget.
- We develop and design head turning websites that gives a unique identity to the business of the client.
- **BeyondScript** has the experience and expertise to deliver and exceed expectations of the clients.
- We provide these services for small to medium-sized businesses across the globe. Our flexible hours, affordable rates and customer service make us the premier business solution provider.
- We have a strong customer-centric approach that ensures a stable and long-term relationship with our clients, and a significant portion of our revenue comes from repeat and referential business.

- If your business needs to get noticed on the web then come and talk to the web design team that will get you up and running quickly, professionally and at the right price. Every website we create is designed exclusively for you, to make sure that you outshine your competitors. You will have your own Project Manager who will guide you every step of the way, from the first draft through to the finished website.
- You should try us if you... are a small to medium sized business and need a professional website want to be able to easily update your website anytime and expect great customer service and support.

How we operate:

If you're selling online services or products, having a website is obvious. But even if you don't sell anything directly online, the website can serve as an extension of your business card, with information about you, your business, and services offered.

Creating a website for your business can be easier than you think.

1. Hire our project manager
2. Describe your business a bit
3. Choose a category and a platform on which the website will be developed
4. He will then help you choose a design for your website.
5. Share your business prospectus with us for the content.
6. Our developers will do the rest until project timeline you can sit back and relax
7. Alive! Your Website is Up and Running.

What we deliver:

- **Fast Telephone Support:** Your call will be answered by a real person and we will not ask you to Press 1 for this or Press 2 for that. Our expert support team will be delighted to help you with any questions and we aim to answer every call ASAP.
- **Prompt Email Replies:** Your emails will be answered by one of our highly trained team who will either help you directly or find exactly the right person to solve your query. We aim to answer every email within an hour.
- **Unlimited Training:** Whilst we have made The Toolkit very easy to use we still recognise that lots of our clients are new to the web and need a helping hand. So we offer unlimited Toolkit training whenever you need it. Simply call the team to book your remote training session.
- **Business Class Performance:** Your website will be built to the highest standards to ensure it is easy to find and navigate so your visitors leave with a positive impression of your company. Our top of the range hosting network has 100% uptime so you can be sure that your business will always be online.
- **Ongoing Development:** The entire team at **BeyondScript** are committed to constant improvement in the toolkit we provide. We listen to our clients and we make regular changes to improve the service we give you. It's all part of our commitment to client satisfaction.

- Social Media Setup: Generate interest with fully branded social media pages linked to your site.
- SEO (Google Pack): Turbo-charge your website with a pack containing some of Google's most effective services

Updating Your Website:

- 1) Every site we create is powered by The Toolkit, our very own Content Management System. With The Toolkit at your fingertips, you'll be able to update your own website quickly and easily. And if you need any help or guidance our fully trained team are here to help you every step of the way.
- 2) Updating your website helps your business using The Toolkit to update your website not only gives you the flexibility to add content at any time, it gives you many more benefits:
 - You don't have to fork out expensive fees every time you need to change text or update pictures. You choose the people who can log in and update your site:
 - It's easy to set up a new user. You can get business-critical information published instantly on your website. If you want to take something off your site quickly, you can do so right away. It's easy to make sure the search engines find lots of fresh content on your site.
 - The Toolkit is also packed with excellent Search Engine tools that will help you boost your rankings in Google, Yahoo! and Bing. Winning new business on the web couldn't be easier!

Growing Your Website (SEO/SMO):

Our website packages give you the number of pages and images that best suit your needs: and our team will happily advise you which option will suit you best. We also understand that it's important for your website to grow with your business. That's why you can request more pages and images when it suits you, and why we offer a range of extras that will help you take your website to the next level.

Search Engines (SEO):

The most important aspect of Search Engine Optimisation is regularly updating your website with new text, images and social media. With The Toolkit we make this very easy. When you write about the work your business does, your local area and the products you sell, you're helping to tell the search engines what your website is about. Search engines rank your website by noticing keywords, like 'web design India or 'painting contractor India, in your text.

- **Meta Descriptions:** text that search engines use to summarise your page in the search results.
- **Meta Keywords:** words that search engines look at when indexing your page. The main content: packed full of keywords for the best results.
- **Page links:** linking to pages within your site gives them a 'vote' of authority.
- **Image tags:** text to describe each image on your website helps improve your search results.

While no company can guarantee you top search engine rankings in a competitive field, the key issue is whether you have the tools you need to improve your rankings and increase your competitiveness. We deliver them, and our team is always delighted to help advice you on improving your search engine positions.

Social Media (SMO):

Your website is the ideal hub to link together all your online profiles and communicate with your customers using the latest technologies. Don't worry if you're a novice to Social Media, we're here to help and we can create all your accounts for you if you'd like a helping hand.

Why choose BeyondScript

- **Founded in 2012:** we've been designing beautiful & successful websites since then.
- **Based in Rajasthan:** we're based in Jaipur and work with people all over India as well as Overseas.
- **Bespoke Designs:** Using your ideas and our creative input, we deliver perfection.
- **Over 50 Happy Clients:** Our clients love what we do and stay loyal to us for years!
- **In-House Development:** we invest heavily in our platform, our business and our team.
- **Experienced Project Management:** Our team makes the whole process easy and exciting, with clear guidance.
- **Fast Telephone Support:** Calls are answered by our friendly team ASAP.
- **Prompt Email Replies:** Emails are clear, concise and answered within the hour.
- **Creative and Bespoke Design:** Our websites are designed from scratch using the latest technology
- **Unlimited Training:** You will receive unlimited Toolkit training at all times.

- **Business-Grade Emails:** High performance and spam filtered emails connected to all your devices.
- **On-Going Development:** We guarantee to use and develop the latest technology to power our websites.

Up and Running In Days:

- **Get Started:** Call us to book your first design call with your project manager, where they will discuss design ideas, colours, layouts etc. with you.
- **First Draft:** you'll see a first draft from us within 3 days of speaking to your project manager. We'll host this on a temporary domain name so as not to disrupt your existing site.
- **Final steps:** We'll develop the project until it looks like the proposed solution as discussed before starting the contract. Once you are happy with the magic, we'll ask you to complete our Publication Checklist and we'll publish your new website!

Thank You for your Business!
